

## Lysol, Meijer Team Up to Help Combat the Cold & Flu at School

In an effort to support the community during an especially challenging cold and flu season, **Lysol** and Meijer teamed up this week to clean desks at a Grand Rapids Public School. A team of 20 people joined forces to “Cleanse the Classroom” at **Coit Creative Arts Academy**.

*“Based on our mutual commitment to our communities and customers, we thought it would be fitting to spend an afternoon in a school, cleaning desks, to help combat the cold and flu, and hopefully preventing one more student or teacher from missing school due to illness,”* Lysol Director of Sales Patrick Kane said.

The companies also donated \$500 worth of products to the school so each teacher was equipped with more Lysol disinfectant products. Earlier this year, they gave away \$10,000 in Lysol cleaning and school supplies to schools throughout the Midwest as part of their yearly Back-to-School campaigns.
