

Meijer Issues Environmental Footprint Report

Meijer pursues eco-friendly initiatives in our stores and throughout our supply chain in order to benefit our customers and communities.

As we continue to grow across the Midwest, we believe, it is more important than ever to be a good neighbor, which means continuing to focus on reducing our environmental impact.

Please take a look at our [2016 Meijer Environmental Footprint Report](#), which shares information on our sustainability initiatives and performance, as well as where we hope to go in the future.
