

## Supporting Our Community's Elders

Stories continue to emerge showing our team members doing great things – from donating to school districts and food banks to going the extra mile when a customer needs help. That spirit continues with the extra care they're showing for elders in their communities.

We recently partnered with **The Cleveland Clinic** to support the elderly community near its campus. We provided them with 250 bundles of cleaning supplies, including hand soap, paper towels and disinfectants.

Additionally, our Richmond, Ind. store partnered with its local health department to donate 11 care packages to 11 area nursing homes. Each package included supplies such as masks, aprons, hand sanitizer and sanitizing wipes.
