

West Michigan Center for Arts + Technology Celebrates Students

The **West Michigan Center for Arts + Technology (WMCAT)** recently held its Annual White Coat Ceremony, where its pharmacy technician students received their WMCAT white coats to wear out in their retail externships.

Meijer is pleased to sponsor the pharmacy technician adult career training program at WMCAT in an effort to recruit well-trained graduates for placement in its pharmacies throughout West Michigan. WMCAT offers fully-funded training in growing fields to under and unemployed adults.

Congratulations to the students as they continue to move on in their training.
