

As part of a shared commitment to help families make healthier choices, Meijer and Jump with Jill have teamed up to bring the [**Jump with Jill Live Tour Presented by Meijer**](#) to local schools throughout the Midwest.

Known for its unique approach to engage children on the subject of health, Jump with Jill is the world's only rock & roll nutrition show. In addition to teaching students in kindergarten through sixth grade about making healthy choices, it helps empower them to eat healthier through catchy music, dance moves and hip outfits.

Meijer is delighted to bring the show to 25 schools across Michigan, Ohio and Indiana. As a family-owned company, we are committed to helping shoppers make better food choices in their local grocery store. Through our partnership with the **Produce for Kids** [Healthy Families, Helping Kids campaign](#), donations from participating fruit and vegetable suppliers extend reach of this initiative by bringing nutrition education programs, like Jump with Jill, to schools across our footprint.
