

Meijer Serves Sussex Community

After officially joining the Wisconsin community one year ago, Meijer has made every effort to support the local communities in areas it serves. Meijer will celebrate its most recent addition to the state on June 7 when it opens its newest supercenter in Sussex.

Before the store even opened, Meijer was eagerly seeking ways to serve the community. In anticipation of the Sussex store's opening, Meijer recently donated \$25,000 to **Sussex Outreach Services** (SOS), which provides food, informational resources, client advocacy and general assistance to individuals and families in the Hamilton School District. The Meijer donation will go toward supplies and other infrastructure needs to establish the food pantry at the new SOS facility.
