

Dinos & Dragons Exhibit Opens at Brookfield Zoo

The **Brookfield Zoo** opened its new Dinos & Dragons summer exhibit on May 6. The interactive exhibit presented by Meijer takes visitors back to a time when dinosaurs roamed the Earth.

Guests can explore a display of 17 animatronic dinosaurs and dragons—including the Triceratops, Tyrannosaurus Rex and a Chinese dragon—and for the first time in Brookfield Zoo history, see the world's largest lizard, a 6-foot Komodo dragon.

An experience for the entire family, younger guests can stop by the kid-friendly stations and have fun with temporary tattoos, a dragon texture rubbing project and photo opportunities with peek-boards.

The exhibit is open during regular zoo hours from May 6 through September 17. Click [here](#) to learn more about the Dinos & Dragons exhibit at the Brookfield Zoo.
