

Partnering with Grand Park to Train Indiana's Future and Current Sports Pros

In the lead-up to opening our Westfield, Ind. store this spring, we [found many community partners](#) we were eager to support. But since opening the doors, our team continues to seek out local organizations making a big impact in their community, which is how we found our newest Westfield partner, the [Grand Park Sports Campus](#).

The impressive complex spans 400 acres with 31 multi-purpose fields, 26 diamonds, and three indoor facilities. We're pleased to be the official supercenter of the Grand Park Sports Campus, which hosts many community and sporting events for Westfield youth and their families.

Beyond serving the Westfield community, the sports facilities draw athletes from across the greater Indianapolis area, serving as the training camp for our partner, the Indianapolis Colts.

"Meijer has jumped right in to become a part of the fabric of our city both as a business and corporate citizen. This community-minded spirit is a perfect synergy for Westfield and our visitors to Grand Park," Westfield Mayor Andy Cook said. "I am glad to call them our 'partners.'"

By supporting Grand Park, we know we're not only supporting some of the best professional athletes the state has to offer, but also helping develop future athletes.
